Remarks:

1. **Teaching and assessment for graduate students** will proceed according to the suitability of each program.
2. **From Monday afternoon onward**, all theoretical and practical classes are suspended. This period is reserved as an out-of-classroom learning day through extracurricular activities for undergraduate students.
3. **The teaching period is divided into two phases:**
 - o The first phase (for Modules 1 and 2) includes 10 weeks of instruction, followed by an assessment period in Weeks 11-12.
 - o Instruction then continues for another 5 weeks (Weeks 13-17), followed by an assessment period for Module 3 in Weeks 18-19.
 - o General courses will align their teaching schedules with these periods to avoid overlapping with students' class times.

4. **Assessments for module courses:**
 - o Assessments for Modules 1 and 2 will follow the academic calendar schedule, with Module 1 in Week 11 and Module 2 in Week 12.
 - o Module 3 assessments will take place in Weeks 18-19.
 - o For general courses, midterm assessments will occur in Weeks 11-12, and final assessments in Weeks 18-19.
5. **Teaching and assessments during the Summer Semester** will proceed as specified in this academic calendar.
6. **Course registration, late registration, adding, dropping, and withdrawing** for both general and module courses must be completed within the periods specified in this academic calendar.
7. **Regulations for module courses are as follows:**
 - o a. The university allows students to take exams for module courses before deciding whether to withdraw.
 - o b. Short-term modules will not announce assessment scores to students before the withdrawal deadline.
8. **For course withdrawals**, the date the student submits a fully complete request is considered the confirmed withdrawal date, even if the approval process in New ACIS is not yet complete. Once a withdrawal is approved, it cannot be canceled. If a student receives withdrawal approval before the exam date but still attends the exam (even if their name is on the exam list), the exam will be considered void, and the withdrawal cannot be reversed.
9. **Students on academic probation** must obtain permission from their advisors before completing the final step of registration.
10. **Students must clear any outstanding tuition fees** from the previous semester before they can register for the next semester.
11. **If a student registers for courses but fails to pay tuition fees** by the specified date in the calendar, the registered courses will be canceled. The student must then re-select courses during the registration period on the first day of the semester.
12. **Students who register late or pay the status maintenance fee late** will be subject to a fine of 50 THB per day (including holidays), counting from the first day of the semester as specified in this academic calendar.
13. **Students with incomplete grades ("I")** from the previous semester will not be permitted to register for the next semester.
14. **Students intending to take a leave of absence** must complete the faculty approval process before the status maintenance registration deadline specified in this calendar.

Note: Recognizing the challenges arising from the university's diverse teaching and learning formats—including both general instruction and short-term modules that feature a single learning outcomes assessment at the end—this may cause concern among students, parents, and faculty regarding the potential results. Therefore, the university has comprehensively considered this matter and agreed that effective learning should be accompanied by fair opportunities for students to prove themselves. Consequently, the schedules for teaching, learning, and assessing learning outcomes have been adjusted. This adjustment emphasizes providing students with increased opportunities to fully explore their potential, alongside flexibility and the full support of the university, to ensure that everyone can achieve their educational goals with the utmost confidence.
